

Composition

The student will develop and apply the writing process to communicate in writing for a variety of purposes.

A white shield-shaped sign with a black border. The text "LEVEL 1A" is at the top and "WC1" is in the center, both in black capital letters. The sign is mounted on a black pole.

The Outcome

How To Get There

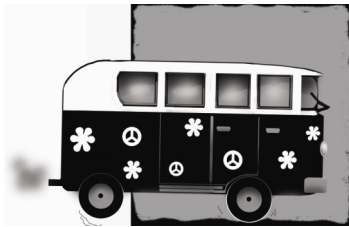

Encourage your student to learn to accurately spell his complete name, address, and date of birth. Give him practice in filling out simplified forms, such as for grocery cards and store credit.

A white shield-shaped sign with a black border. The text "LEVEL 1A" is at the top and "WC2" is in the center, both in black capital letters. The sign is mounted on a black pole.

Why Go There?

How To Get There

Give your student practice in writing letters and numerals by using some of the activities found on pages 5-17. Instead of using the alphabet and numeral cards, encourage your student to write the answers.

Begin each tutoring session by having your student write the alphabet in order and from memory. Do the same for the sequence of numerals he is learning.
